

# Contingent Workforce Proactive Release of Information

---

## Introduction

The Contingent Workforce Prequalification scheme (SCM0007) is a mandated Whole of Government arrangement for the sourcing and payroll of the contingent workforce.

The data consolidated in this report has been collected from three sources:

- Fieldglass Contractor Central Vendor Management System (VMS),
- Beeline Contractor Central VMS,
- Supplier reporting templates for transactions outside of the VMS.

Supplier reported data in this report is unaudited and may include errors, duplication and omissions. Where errors, duplications or omissions are subsequently identified, NSW Procurement will issue an amended report noting the change(s), or include missing data as late reported spend in the subsequent reports.

The Contractor Central VMS has been implemented in the following clusters and agencies:

- Customer Service,

- Eligible Customers (excluding the ACT Government),
- Health,
- Enterprise, Investment and Trade
